NOUN

A Noun is the name of a person, place, thing, quality, condition and action. There are five kinds of Noun –

- (a) Proper Noun
- (b) common Noun
- (c) collective Noun
- (d) Abstract Noun
- (d) Material Noun

Noun	Number	Singular	A boy
		Plural	Boys
	Gender	Masculine	Boy
		Feminine	Girl
		Common	Baby
		Neuter	Non-living things
	Case	Nominative	Ram help Sita.
		Objective	Ram help Sita
		Possessive	Ram's wife

words	Form	Usage
Deer	Same form both singular & plural	Singular/plural depending upon context
Hundred	Three hundred people/Hundreds of people	Plural
Politics	Looks plural	singular
Spectacles	Plural	Plural
Cattle	Looks singular	plural
Furniture	Singular	singular

NOTE : to manage questions on number of noun. Try to make out sense of sentence whether singular or plural which noun form is to be used.

Important rule : Some nouns have the same form both in singular as well as in plural.

For example:

(a) A deer was caught

(b) Deer were caught

Here, the singular and plural form of the noun Deer is same. Like Deer there are other nouns that have **the same form in Singular as well as plural form.**

For example :- Sheep, apparatus, species, series , hundred, dozen, hair etc

Important rule: Nouns denoting large numbers are used both in singular and plural form

For example:

(a) Three hundred people attended the function.

(b) Hundreds of people attended the party.

In sentence (a) 'hundred' is preceded by number 'three'. So 'hundred' will take no plural form. Word 'three hundred' indicates plurality.

But in sentence (b) 'hundred' is not preceded by any number. So to indicate plurality, we will write 'hundreds'

So, rule is that when words like hundred, dozen, thousand, pair, score are not preceded by any word denoting number then they take the plural form, otherwise not.

(a) Cola paid lakhs of rupees to Aamir Khan for promoting their product.

(b) I brought **two dozen** bananas.

Important rule :- Tell which sentence is correct

(a) Since long no **news has** been heard.

(b) Since long no **news have** been heard.

Sentence (a) is correct. **Some nouns are always used as singular though they look like plural nouns.**

Other similar words are politics, mathematics, physics, billiards, ethics, summons, innings

For example

(a) **politics** is not my cup of tea.

(b) I received **summons**.

(c) Sachin once again played **a superb innings**

Important rule: Tell which sentence is correct

(a) The spectacles that you are wearing are really nice.

(b) The spectacles that you are wearing is really nice.

Sentence (a) is correct.

The reason being that **some noun words are always used in the plural form.**

For example

Trousers, arms, drawers, assests, scales, alms, thanks, cards, ashes, riches, premises, credentials, proceeds.

Important rule: Tell which sentence is correct

(a) The cattle was grazing in the field.

(b) The cattle were grazing in the field

Sentence (b) is correct. The reason being that **some nouns are always used as plurals though they look like singular.**

Other nouns like this are public, people, folk, mankind, poultry, sheep, police, gentry, peasantry, bulk, majority, etc

For example

(a) The majority are with the leader.

(b) police, though late, have come

(c) Public want results.

Important rule : Tell which sentence is correct.

(a) This project will lead to lots of **expenditures.**

(b) This project will lead to lots of **expenditure.**

Sentence (b) is correct. The reason is that **some nouns are always used as singular. Preceding adjectives or verb form indicates the singularity of plurality.**

Other nouns are expenditure, furniture, information, machinery, issue, offspring, alphabet, scenery , poetry.

For example

(a) All the furniture was bought last year.

(b) All the information was given to him.

Important rule: Meaning of some nouns in plural form is very different from the meaning of nouns in singular form. Hence, **that form should be used which will convey the right meaning.**

For example

- (a) I opened the letter and read its **contents**.
- (b) Her mouth was fixed in a smile of pure **content**.
- (c) The conflict between **good** and evil is ages old.
- (d) We must produce **goods** at competitive prices.
- (e) Delhites breathe the most polluted **air** in the world
- (f) She was just putting on **airs** when she came to visit us/me.
- (g) We should renounce the use of **force** to settle our dispute.
- (h) Families of people who died as a result of services in the **forces** should not be ignored.
- (i) I was very excited on my **return** to my home village.
- (j) Early **returns** in the ballot indicate majority for opposition.

Following are rules regarding apostrophe

Rules regarding apostrophe S ('s)

- (a) Singular noun 's is added after the word.
- (b) Singular noun Only an apostrophe is added when there are too many hissing sounds.

For example

Moses' laws, for goodness' sake, For justice's sake.

- (c) Plural nouns ending in s like boys, cows only (') is added after the word
- (d) Plural nouns not ending in s like men, children ('s) is added after the word
- (e) 'S is added primarily after the living things and personified objects.

For example :

Governor's bodyguard, horse's head, Nature's law, Fortune's favourite.

- (f) 'S is not used with inanimate or non-living things.

For example

Leg of the table, cover of the book.

(g) But in nouns that denote time , distance or weight , 's is used.

For example

A stone's throw, in a year's time , the earth's surface.

(h) Some other common phrases where 's is used are to his heart's content, at his wit's end. Out of harm's way

(i) When a noun consists of several words , the possessive sign is attached only to the last word.

For example

(a) The Queen's of England reaction is important in the Diana episode. (Incorrect)

(b) The Queen of England's reaction is important in the Diana episode . (correct)

Do not be mistake that since it is the Queen's reaction, the 's should come after queen. You might think that putting it after England would make the reaction England's and not the Queen's. This is shortsightedness. Do not see Queen and England in isolation, Queen of England is one whole unit and the apostrophe should come at its end.

(j) When two nouns are in apposition, the possessive sign is put to the latter only.

For example

(a) I am going to Stephen Hawking's the scientist's country. (Incorrect)

(b) I am going to Stephen Hawking the scientist's country. (correct)

(k) When two or more nouns show joint possession, the possessive sign is put to the latter only.

For example

(a) Amitabh and Ajitabh are Bachchanji's sons. So Bachchanji is Amitabh's and Ajitabh's father. (Incorrect)

(b) Amitabh and Ajitabh are Bachchanji's sons. So Bachchanji is Amitabh's and Ajitabh's father. (correct)

(i) When two or more nouns show separate possession, the possessive sign is put with both.

For example

(a) The audience listened to Javed and Vajpayee's poems. (Incorrect)

(b) The audience listened to Javed's and Vajpayee's poem.(correct)

2. AGREEMENT TO THE SUBJECT WITH THE VERB

A verb must agree with its subject in **number and person**. Often due to "Error of proximity" the verb is made to agree in number with a noun near it instead of with its proper subject.

For example

(a) The quality of the mangoes were not good. (Wrong since subject is quality, a singular and not mangoes.)

(b) The quality of the mangoes was not good (Right)

(c) His knowledge of Indian vernaculars are far beyond the common. (Wrong)

(d) His knowledge of Indian vernaculars is far beyond the common. (Right)

Important Rule : If two singular nouns express one idea, the verb is in the singular.

For example

(a) Bread and Butter are essential for one's life. (incorrect)

(b) Bread and Butter is essential for one's life. (correct)

Important Rule : Verb should be singular even when some words are joined to a singular subject by ' with ' , ' as well as ' etc.

For example

(a) The chairman, with the directors, is to be present.

(b) Silver, as well as cotton, has fallen in prices.

Important Rule : When a plural noun denotes some specific quantity or amount considered as a whole the verb is generally singular.

For example

(a) Five hours are too short a time to judge one's character. (Incorrect)

(b) Five hours is too short a time to judge one's character. (correct)

This is so because five hours is considered as one chunk.

Important Rule : Two or more singular subjects connected by 'or' , 'nor' require singular verb.

For example

(a) No nook or corner was left unexplored.

(b) Our happiness or our sorrow is largely due to our own actions.

Important Rule : When the subjects joined by 'or' 'nor' are different numbers, the verb must be plural, and the plural must be placed next to the verb.

For example

(a) Neither Rekha nor her friends was present at the party. (Incorrect)

(b) Neither Rekha nor her friends were present at the party. (correct)

Important Rule : Either, neither, each, everyone, many a must be followed by a singular verb.

For example

(a) Neither of the two men was very strong.

(b) Every one of the prisons is full.

(c) Many a man has done so.

(d) He asked whether either of the application was suitable.

Important Rule: Two nouns qualified by each or every , even though connected by 'and ' require a singular verb.

For example

Every boy and every girl was given a packet of sweets.

Important Rule : 'None' though singular commonly takes a plural verb.

For example

None are so deaf as those who will not hear.

3. PRONOUN

A pronoun is a word used in place of a noun

Now consider the following cases

Since pronoun is used instead of a Noun, it must be of the **same number, gender and person** as the noun for which it stands.

For example

Those beggars are idle.They refuse to work for their living.

Please consider the following two sentences.

(a) After a few hearings the **jury** gave **its** verdict.

(Pronoun 'its' is used in place of noun 'jury')

(b) **The jury** were divided in **their** opinions.

(pronoun 'their' is used in place of noun 'jury')

You must be wondering **why different pronoun 'its' and 'their' is used in place of the same noun 'jury'**

The reason is **when a pronoun stands for a collective noun it must be in the singular number and neutral gender. (Sentence a)**

But when collective noun conveys the idea of separate individuals comprising the whole the pronoun standing for it must be of the plural number. In sentence b, it is clear that members of the jury are not behaving as whole.

For example

(a) The committee is reconsidering **its** decision.

(b) The committee decided the matter without leaving **their** seats.

Major categories – rules

1. Noun pronoun verb- Agreement In person-number- gender throughout sentence
2. Type of pronoun-for persons/things
3. Order of preference
4. Position-nearness
5. Case- subjective/objective/possessive

Noun-pronoun agreement in person, number,gender.

For example

(a) all passengers must show **their (not his)** tickets.

(b) I am not one of **those who** believe everything **they** (not I) hear

Important Rule: When two or more singular nouns are joined by 'and ' the pronoun used for them must be plural.

For example

Rama and Hari work hard. **Their** teachers praise them.

But when two Singular nouns **joined by 'and'** refer to the same person or thing, the pronoun should be **singular**.

For example

The Secretary and Treasurer is negligent of **his** duty. Here the same person is acting as Secretary and Treasurer. That's why singular pronoun is used.

Important Rule : When two singular nouns joined by 'and' are preceded by 'each' or 'every', then the pronoun must be singular

For example

Every soldier and every sailor was in his place.

Important Rule : When two or more singular nouns are joined by 'or' , 'either...or' , 'neither...nor' , the pronoun is generally singular

For example

(a) Neither Abdul nor Rehman has done **his** lessons

(b) Either Rama or Hari must help **his** friend

Important Rule : When a plural and a singular noun are joined by 'or' or 'nor' , the pronoun must be in the plural

For example

Either the manager or his assistants failed in **their** duty.

Rules regarding personal pronouns

Rule: 123 order of preference = 1>2>3

When a pronoun refers to more than one noun or pronouns of different persons., it must be of the first person plural in preference to the second and of the second person plural in preference to the third.

For example

You and I , husband and wife, have to look after you home.(Incorrect)

You and I, husband and wife, have to look after our home.(correct)

Case – subjective/objective/possessive

Important Rules: To complement of the verb be , when it is expressed by a pronoun, should be in the nominative form.

For example:

(a) it was he (not him)

(b) It is I (not me) that gave the prizes away.

(c) It might have been he (not him).

Tell which sentence is correct.

(a) The presents are for **you and me. (a)**

(b) The presents are for **you and I. (b)**

Sentence (a) is correct. Pronoun has to agree with the case. Here it is the **objective** case. So 'me' should be used instead of 'I'

For example

My uncle asked my brother and me to dinner.

Important Rule: Tell which sentence is correct

(a) He loves you more than I.

(b) He loves you more than me.

Sentence (a) is correct '**Than**' is a **conjunction joining clauses** And the case of the pronoun to be used may be found by writing the clauses in full. So, in sentence

(a). To clauses joined by 'than' are 'He loves you more' and 'I love you '. Being a **subjective case**. 'I' should be used.

For example

(a) He is taller than I (am)

(b) He loves you more than (he loves) me.

Rules regarding relative pronouns

On combining each of the above pairs into one sentence

(a) This is the boy who works hard (Who in place of He)

(b) This is the boy whose exercise is done well. (whose in place of His)

(c) This is the boy whome all praise. (whom in place of Him)

The above sentences show when to use who, whose and whome. Who is the subjective case, Whose the possessive case and Whome is the objective case.

Who persons

Whose persons/things

Which Things / life

Who, Which, Whome, That, Whose should be **placed as near to the antecedent as possible**.

For example:

I with **my family** reside in Delhi, **which** consists of my wife and parents.

This sentence is wrong as which relates to 'my' family'

So 'which' should be placed as near to family' as possible.

So, the correct sentence is : I with **my family which**, consists of my wife and parents, reside in Delhi.

Who is used in the nominative cases and Whome is the objective case

For example:

(a) There is **Mr.Dutt, who (not whom)** they say is the best painter in the town.

(b) **The Student, whom (not who)** you thought so highly of, has failed to win the first prize.

When the subject of a **verb** is a relative pronoun, the verb should **agree in number and person with the antecedent of the relative.**

For example :

(a) This is one of the most interesting **novels** that **have (not has)** appeared this year. (Here, antecedent of relative pronoun that is novels and not one)

(b) This is the **only of his poems** that **is (not are)** worth reading.

When 'one' is used as pronoun, its possessive form 'one's' should follow instead of his, or her etc

For example:

One must put one's best efforts if one wishes to succeed.

With let' objective case of the pronoun is used

For example :

Let you and me do it.

If a pronoun has two antecedents, it should agree with the nearer one.

For example:

(a) I hold in high esteem everything and **everybody who** reminds me of my failures.

(b) I hold in high esteem everybody and **everything, which** reminds me of my failures.

In referring to anybody, everybody, anyone ,each etc. the pronoun of the masculine or the feminine gender is used according to the context.

For example:

(a) I shall be glad to help everyone of my boys in his studies.

(b) I shall be glad to help everyone of my girls in her studies

(c) It shall be glad to help everyone of my students in his studies.

But when gender is not determined ,the pronoun of the masculine gender is used as in sentence c.

The pronoun **one should be used throughout, if used at all.**

For example :

(a) **One** must use **one's** best efforts if **one** wishes to succeed.

(b) **One** should be careful about what **one** say.

Plural is commonly used with none.

For example:

(a) None of his poems are well known.

(b) none of these words are now current.

Anyone should be used when more than two persons or things are spoken of.

For example

She was taller than anyone of her five sisters.

4. ADJECTIVES

Adjective are the words that describe the **qualities** of a noun or pronoun in a given sentence.

Consider the following

Tell which sentence is correct.

(a) **Flowers** are plucked **freshly**.

(b) **Flowers** are plucked **fresh**.

Sentence b is correct as ; adjective is correctly used with a verb when some quality of the subject rather than verb is to be expressed. Here, fresh describes the word Flowers (a noun) and not plucked (a verb) .

Types of adjectives

Types of adjectives	Examples
Adjectives of quality	Good, bad , red, black
Adjectives fo quantity	Some, any , little, few
Adjectives of number	Cardinal-one, two,three Ordinal- first, second , third
Possessive adjectives	My, our, your
Distributive adjectives	Each, every, either
Demonstrative adjectives	This, That, those
Interrogative adjectives	What, which ,who..

From above table you can see that many words behave as pronoun as well as Adjectives depending upon the context in which these words are used in a sentence.

Rules regarding demonstrative adjective

Rules regarding distributive adjectives

Rule: 'Each' is used when reference is made to the individuals forming any group. Each is also used when the number of the group is limited and definite

For example:

(a) I was in Shimla for five days and it rained each day.

'Every' is used when reference is made to total group or when the number is indefinite.

For example:

(a) Every seat was taken.

(b) I go for a movie every week.

(c) leap year falls in every fourth year.

Rule : Each , either, neither and every are always followed by the singular noun.

For example:

(a) Each boy must take his turn.

(b) Every word of it is false.

(c) Neither accusation is true.

Rules regarding adjectives of quantity

'Some' is used in affirmative sentences to express quantity or degree.

For example:

I shall buy some bananas.

Any is used in the negative or interrogative sentences to express quantity or degree.

For example:

(a) I shall not buy any bananas.

(b) Have you bought any bananas ?

But 'some' is an exception to the above rule. Some is used in interrogative sentences, which are commands or requests.

For example:

Will you please lend me some money ?

'Few' is used for countable objects and little is used for uncountable objects.

'little' means not much. So use of the word little has a negative meaning.

For example:

(a) There is little hope of his recovery.

(b) He has little appreciation of hard work.

'A little' means some though not much. So, use of a little has a positive meaning.

For example:

(a) There is a little hope of his recovery.

(b) He has a little appreciation of hard work.

'The little' means not much but all there is.

For example:

(a) The little information he had was quite reliable.

(b) The little knowledge of management he possessed was not sufficient to stand him in good stead.

'Few' mean not many. So use of the word few has a negative meaning.

For example:

Few men are free from faults.

'A few ' means some. So use of 'a few' has a positive meaning.

For example:

A few men are free from faults.

'The few' means not many, but all there are

For example:

(a) The few remarks that he made were very good.

Only uncountable nouns follow much, little, some, enough, sufficient and whole

For example:

(a) I ate some rice.

(b) There are not enough spoons.

Rules regarding interrogative adjectives

'What' is used in the general sense and 'which ' is used in a selective sense.

For example:

(a) Which of you haven't brought your book ?

(b) What manner of man is he ?

Rules regarding degrees of comparison of adjectives

Rule:

Comparative degree:- When two objects are compared with each other, the latter term of comparison must exclude the former.

For example:

(a) Delhi is **bigger than any other** city in India.

Superlative degree :- In a comparison by means of a superlative the latter term should include the former.

For example:

(a) Delhi is the biggest of all cities in India.

(b) Of all men he is the strongest.

Kindly note the difference in this and the previous rule.

Rule : Later and latest refer to time.

For example:

(a) He came later than I expected.

(b) This is the latest news.

Rule : Latter and last refer to position.

For example:

(a) The last player could not bat as he was injured.

(b) The latter chapters are very interesting.

Latter is used when there are two only,

'last' when there are more than two.

For example :

(a) Of Manohar, Syam and Joshi, the latter is a driver. (incorrect)

(b) Of Manohar, Syam and Joshi, the last is a driver. (correct)

Rule : 'Elder and eldest' are used only of persons (usually members of the same family)

For example:

(a) My elder sister is doing MBA from IIM Ahemdabad.

(b) My eldest brother is getting married today.

'Older and oldest' are used of both persons and things.

For example:

(a) This is the oldest building in the city.

(b) Anthony is the oldest boy in the class.

Rule: 'Further' means more distant or advanced whereas 'farther' is a variation of further and means at a distance – both the words can be used to indicate physical distance.

For example:

(a) No one discussed the topic further.

(b) Calcutta is farther from the equator than Colombo.

Rule : The comparative degree is generally followed by 'than' but comparative adjectives ending in 'is' or 'are' are followed by the preposition 'to'

For example:

(a) Akshay is **inferior to** Aamir in intelligence.

(b) Aamir is **superior to** Akshay in intelligence.

(c) He is **junior to** me.

(d) Who was captain **prior to** azhar?

Rule : we can not compare perfection !

Adjectives such as square, round, perfect, eternal, universal, unique do not admit of different degrees. So they cannot be compared.

Thus strictly speaking we cannot say that a thing is more square more round or more perfect. But sometimes we do make exceptions to this rule.

For example:

This is the most perfect specimen I have seen.

Rule : When 'than' or 'as' is followed by the third person pronoun, the verb is to be repeated.

For example:

Ram is not as clever as his brother is.

Rule : When 'than' or 'as' is followed by first or second person pronoun, the verb can be omitted.

For example:

He is more intelligent than you.

Rule : In comparing two things or classes of things the comparative should be used.

For example:

(a) Of two evils choose the lesser (not least)

(b) Which is the better (not best) of the two ?

Rule : A very common form of error is exemplified in the following sentence,

(a) The population of London is greater than any town in India.

(b) The population of London is greater than that of any town in India.

Sentence (b) is correct as **the comparison is between the population of London and the population of any town in India.**

Rule : Double comparatives and superlatives should be avoided.

For example:

(a) Seldom had the little town seen a more costlier funeral. (wrong)

(b) Seldom had the little town seen a costlier funeral. (Right)

Rule : Preferable has the forced comparative and is followed by 'to'. Phrase 'more preferable' should not be used.

For example:

(a) Coffee is more preferable to tea. (Wrong)

(b) Coffee is preferable to tea. (Right)

Rule : 'Less' refers to quantity whereas 'fewer ' refer to number.

For example:

(a) No fewer than fifty miners were killed in the explosion.

(b) We do not sell less than ten kg of tea.

Rule : Certain adjectives do not really admit of comparison because their meaning is already superlative. Such words are unique, ideal, perfect , complete, universal, entire, extreme , chief, full, square , round. Therefore phrases like most unique, more round, fullest, chiefest etc. are wrong.

Rule : If there is a gradual increase it is generally expressed with two comparatives and not with positives.

For example :

(a) it grew hot and hot. (incorrect)

(b) It grew hotter and hotter.(correct)

5. TENSES

1. Tense is the form taken by a verb to indicate **time and continuous or completeness** of action. The continuous **completeness** of action is denoted by **four subcategoris**.
 - (a) **Simple Tense** It is used for habitual or routine actions in the present Tense, action which is over in the Past Tense & action to happen in the Future Tense.
 - (b) **Continuous Tense** The action is incomplete or continuous or going on.
 - (c) **Perfect Continuous Tense** The action is going on continuously over a long period of time and is yet to be finished.
2. The different tenses and the verb forms used in each tense are given below

	Name of Tenses	Verb forms used
Present	Present simple	V ₁ + s/es
	Present continuous	Is/am/are + verb + ing

	Present perfect	Has/Have + v ₃
	Present Perfect continuous	Has/Have + been + verb + ing
Past	past simple	V ₂
	Past continuous	Was/Were + verb + ing
	Past perfect	Had + v ₃
	Past Perfect continuous	Had + been + verb + ing
Future	Future simple	Shall/will + verb
	Future continuous	Shall/will + be + verb + ing
	Future perfect	Shall/will + have + V ₃
	Future perfect continuous	Shall/will + have been + verb + ing

More rules for verbs and Tenses

SIMPLE PRESENT

1. **To express a habitual action**

For example:

(a) I get up every day at five o'clock.

2. **To express general truths.**

For example:

Fortune favours the brave.

Important Rule : If the subject is of the third person, singular number (He, She, it) add 'S' or es/ies' to the first form of the verb to make it singular number.

For example:

She plays the violin every day.

He loves his parents

The dog barks at the people.

The bird flies in the Sky.

He does his duty.

Present continuous : For an action going on at the time of speaking

For example:

The boys are playing cricket in the ground.

Present perfect : To indicate the completed activities in the immediate past.

For example:

He has just gone out.

The present perfect is **never used with adverbs of the past time**. In such cases the past simple should be used.

For example

I have seen a film last night . (wrong)

I saw a film last night. (right)

He has left for Hyderabad last week. (wrong)

He left for Hyderabad last week.(right)

Important Rule: The present perfect tense with " For or Since" is used to express an action began at some time in the past and is still continuing upto the time of speaking just finished.

For..... period of time (for 2 days / for 10days / for a long time)

Since.....point of time. (Since 1996, Since morning, since yesterday, since last week)

Ex. I know him since 1986 (X)

I have know him since 1986 (✓)

Our teacher is sick for the last two days. (X)

Our teacher has been sick for the last two days. (✓)

Present perfect continuous:-

action, which began at some time in the past and is still continuing. With the present perfect continuous tense an adverb or phrase that express time is used.

For example:

I have been reading this book since morning.

Important Rule: The present perfect continuous Tense " is also used for actions began in the past and are still continuing.

I am reading this novel since morning. (X)

I have been reading this noel since morning. (✓)

They are going to English classes for the last one month. (X)

They have been going to English classes for the last one month. (✓)

Past simple:- To indicate an action completed in the past.

Generally , adverbs or adverb phrases of past time are used in the past simple tense.

For example:

(a) The steamer sailed yesterday.

Past perfect:-

The Past perfect tense is used when two actions happened in the past. In this case it is necessary to show which action happened earlier than the other. Here past perfect is used for the action, which happened earlier.

For example;

(a) When I reached the station the train had started.

Important Rule: - When the first action led to the second action immediately The simple past Tense + Simple Past Tense are used.

When he opened the gate, they came in. (✓)

Important Rule: - When the first action completed before the second one started, the Past Perfect Tense for the first finished action and the Simple Past Tense for the Second are used.

The patient had died before the doctor arrived. (✓)

More Rules on verb & tenses.

Important Rule: - When the verb in the principal clause is in a past tense, the verbs in the subordinate clauses are normally in the Past Tense.

He said that he will pass the examination. (X)

He said that he would pass the examination. (✓)

They told me that they have paid the fees. (X)

They told me that they had paid the fees. (✓)

Important Rule: - When the subordinate clause expresses a universal truth the past tense in the main clause may be followed by a Present Tense.

He said that the sun rose in the East. (X)
